

### BASIC NURSE AIDE AND MEDICATION AIDE

The basic nurse aide and medication aide programs train students in the knowledge and skills necessary to administer responsible health care to the ill and aged in nursing facilities, long-term care facilities, and assisted care facilities under qualified supervision. Northeast Community College is approved to conduct courses for Basic Nurse Aide and Medication Aide through the Nebraska Department of Health and Human Services.

**Nurse Aide** (NURA 1110 - 3.0 credit hours) – This course is designed to meet the Nebraska Health and Human Services System training requirements for nurse aide certification and employment in long-term care facilities. This course combines classroom lecture and laboratory application for the development of basic skills needed to provide safe, effective, and caring services to the elderly or chronically ill patient of any age, in a long-term care facility. Upon completion of this course, the student is eligible to take the state written and practical skills exam. After successfully passing this examination and completing the application procedure, the student's name will be placed on the basic nurse aide registry at the Nebraska Health and Human Services Regulation and Licensure, Credentialing Division. (30/45/0/0)

**Medication Aide** (HLTH 1120 - 3.0 credit hours) – This course is designed to prepare the student to assume the role and responsibilities of a Medication Aide working in a nursing facility. This course includes information regarding medication administration, pharmacology rules and regulations, classification of drugs, orders, storage, abbreviations, and an overview of commonly used drugs and documentation. (45/0/0/0)

### EMERGENCY MEDICAL RESPONDER AND EMERGENCY MEDICAL TECHNICIAN COURSES

The Emergency Medical Responder and Emergency Medical Technician courses are offered for students desiring to become an entry level EMS provider. Both courses will develop field ready EMS providers with the required knowledge and skills to care for patients who are injured due to trauma or suffering from a medical emergency.

**The Emergency Medical Responder** (EMTL 1515 - 3.5 credit hours) – This course is dedicated to the study and application of the knowledge and skills necessary to become an Emergency Medical Responder. The course contains the current information found in the National EMS Education Standards as outlined by the National Highway Traffic Safety Administration. The course will include applications/skills needed to qualify for the Emergency Medical Responder license in the State of Nebraska. Passing the cognitive and practical skills examination of the National Registry of Emergency Medical Technicians (NREMT) is required for certification. Student must have current CPR certification, American Heart Association-Healthcare Provider Level or equivalent. (45/15/0/0)

**The Emergency Medical Technician Part 1** (EMTL 1840 - 4.5 credit hours) – This course is dedicated to the study and application of the knowledge and skills necessary for an individual to become an Emergency Medical Technician and provide emergency medical care at a basic life support level with an ambulance service or other specialized service. The course will include the first half of the applications/skills needed to apply for licensure as an EMT in the State of Nebraska. After successful completion of this course and EMTL-1845 the student will be eligible to apply to test for the National Registry of Emergency Medical Technician (NREMT) cognitive examination. Once the student has passed both the cognitive and practical skills examinations of the NREMT he/she can apply to obtain an EMT license in the State of Nebraska. This class contains the current information found in the National EMS Education Standards as outlined by the National Highway Traffic Safety Administration. Student must have current CPR certification, American Heart Association-Healthcare Provider Level or equivalent. (60/15/0/0)

**The Emergency Medical Technician Part 2** (EMTL 1845 – 5.0 credit hours) – This course is dedicated to the study and application of the knowledge and skills necessary for an individual to become an Emergency Medical Technician and provide emergency medical care at a basic life support level with an ambulance service or other specialized service. Emergency Medical Technician Part 2 includes the assessment and treatment of a medical patient and the associated skills and medications an EMT can use. After successful completion of this course and EMTL 1840, the student will be eligible to apply to take the cognitive and practical skills examinations of the National Registry of Emergency Medical Technicians (NREMT). Once the student is successful, the student can apply to obtain an EMT license in the State of Nebraska. This class contains the current information found in the National EMS Education Standards as outlined by the National Highway Traffic Safety Administration. Student must have current CPR certification, American Heart Association – Healthcare Provider Level or equivalent. Prerequisite: EMTL 1840 with min. grade of C. (67.5/15/0/0)
